23<sup>rd</sup> January 2024

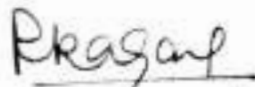

To : All HoDs

As you are aware, student feed back on faculty is being taken and analyzed at the end of each semester, with a view to identify specific weak areas and to enable you to guide and counsel the concerned faculty.

The data for the Odd Semester of academic year 2023-24 has been analyzed and the overall score of faculty members of your department is enclosed for your perusal and action. There appears to be a fairly good correlation between the feedback and results.

You are to apprise the faculty members about their feedback. Please also counsel and monitor the performance of faculty with poor average score.

A score of less than 4.0/5.0 in any of the sections is considered poor and unacceptable. These faculty members need serious introspection and improvement. You are to get an explanation from them giving reasons for their poor rating along with proposed actions by them for improvement and your observations / remarks. In case these are found unsatisfactory, they will be warned and suitably penalized by the undersigned.

AKGEC/DG.O./Notice/2022-23/042  
23<sup>rd</sup> January 2024

To : All HoDs

As you are aware, student feed back on faculty / staff is being taken and analyzed at the end of each semester, with a view to identify specific weak areas and to enable you to guide and counsel the concerned faculty / staff. The feedback is now being taken for faculty and laboratory staff engaged in practical subjects.

The data for the Odd Semester of academic year 2023-24 has been analyzed and the overall score of faculty / staff members of your department is enclosed for your perusal and action. There appears to be a fairly good correlation between the feedback and results.

You are to apprise the faculty / staff members about their feedback. Please also counsel and monitor the performance of faculty with poor average score.

A score of less than 4.0/5.0 in any of the sections is considered poor and unacceptable. These faculty / staff members need serious introspection and improvement. You are to get an explanation from them giving reasons for their poor rating along with proposed actions by them for improvement and your observations / remarks. In case these are found unsatisfactory, they will be warned and suitably penalized by the undersigned.
