Talk By Brahma Kumari Sister Sangeeta on 'Woman- The Foundation of Humanity'

As we approach International Women's Day, it's crucial to recognize the importance of including spiritual insights in our celebrations. Beyond acknowledging women's achievements, this day calls for a deeper understanding of womanhood beyond material concerns. Spiritual insights offer a universal language of love and compassion, helping women reclaim their inner strength and wisdom amidst the pressures of modern life. By tapping into spirituality, women can find inner peace and resilience, enabling them to navigate life's challenges with grace and strength.

By embracing spirituality, we can cultivate a more compassionate society that values the worth and dignity of all individuals, paving the way for greater gender equality and women's empowerment. In light of this, a well-known spiritual leader BK Sangeeta Didi will conduct a session.

The session will be held on 6th March (Wednesday) 2024 in the Main Seminar Hall from 9:00– 10:00 AM, followed by meditation and Q&A.

All Deans, HoDs, Professors, Associate Professor, and Section ICs are to attend the session. In addition to that, 05 lady faculty members from each department will attend the session. Any other lady faculty / staff member free from other duties may attend the session. Director AKGIM and HoDs will also ensure presence of 45 girl students from CSE, 30 from IT, 20 from ECE, 5 from ME, 5 from CE, 10 from EN, 10 from MCA and 10 from AKGIM to attend the session.

"WOMEN IN POWER" CONFERENCE

1 message

Dr. R K Agarwal <dg@akgec.ac.in>

Thu, Apr 4, 2024 at 1:07 PM

To: All Employees (HoDs, Faculty and Staff) <allemployees@akgec.ac.in>

Dear All,

A conference on "Women in Power" is scheduled for 6th April 2024 (Saturday) in the main seminar hall. The conference is organized as an IEEE WIE (Women in Engineering) activity under the umbrella of the WIE IEEE UP Section and is supported by the IEEE PES (Power and Energy Society) student branch chapter. It aims to recognize and celebrate the remarkable contributions of women in engineering, technology, research, and innovation.

The theme of this conference, "Catalyzing Change: Women Empowering the Next Wave," resonates profoundly with the transformative role women play in shaping our future, especially in addressing crucial issues such as energy security and sustainable development. Through insightful plenary talks, keynote addresses, and an engaging panel discussion, the conference aims to amplify awareness of the substantial impact women have had on industry, academia, and society at large. It provides a unique opportunity for attendees to exchange ideas, share experiences, and explore ways to foster greater gender diversity and inclusivity in the field of STEM.

All Deans, HoDs, Professors and Lady Section Incharges; 03 Lady faculty members from each of the AKGIM, EN, ME, CE, and MCA departments; 07 Lady faculty members from each of the ASH and ECE departments; and 15 Lady faculty members from each of the CSE and IT departments are to attend. HODs are to send the list of nominated faculty members to Prof. Hemant Ahuja by 5th April 2024.

The conference schedule includes inaugural session followed by tea; Keynote addresses followed by lunch and the Panel discussion. All are to attend all the sessions and be seated by 9.45 A.M. for the programme.

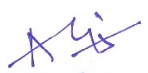

Best Wishes

Dr R K Agarwal

Dear Dr. Aggarwal,

Growing up, I had a very strong role model - my mother. Whether it was about finances or household chores, everything was divided equally between mom and dad. This has always been a "Norm" for me and has helped me shape who I am!

Me and my super mom!

More than 70% of our workforce is women. We never "built for it" but it happened. One of the factors we observe when we take interviews or even on our platform - is a lack of confidence/ self-doubt among them.

Women feel unsure and underconfident in their ability to grow up the ladder or take up those senior roles - especially with life events like marriage, relocation, kids etc disrupting the normal career progression for us more than men.

What really helps is a strong female role model - in personal or professional lives which can help them overcome this mental hurdle.

One of the KPMG research found that women who had strong role models growing up (mother, teacher etc) grew up to be twice more confident (50% vs 25%) than those who did not.

Working women's top 5 significant positive role models in learning about and applying business leadership

Base: Working women, 25-64

Q. Which of the following people are significant positive role models for you today in learning about and applying business leadership?

Source: [KPMG Report](#)

The presence of women in leadership positions and the opportunity to network can help motivate women to advance in their careers. The research suggested nearly nine in 10 (88%) women are encouraged by the women they see in leadership today and more than eight in 10 (86%) noted that when they see more women in leadership, they are encouraged they can get there themselves.

This is something which has helped me during times of self-doubt. I try to find such amazing women and speak to them from time to time.

This Women's Day I thought of sharing this with you all in the form of a talk show where we bring such role models from different spheres of life (entrepreneurs, leaders, sportspersons etc) and get inspired by them.

Dear Students,

As a joint initiative of Ministry of Women & Child Development & Ministry of Human Resources & Development, Govt of India, the UGC through its recent letter to Educational Institution has advised implementation of guidelines for 'Gender Champions' in educational institution to promote gender equality, guaranteed by article '15' of Indian Constitution.

As per the guidelines the colleges all over the country have to nominate students (Boy / Girl) as Gender Champions. In view of the above our Director General has advised that students may be encouraged to participate in Online Essay Writing Competition (Hindi / English) on the following topics in 300-400 words.

“Gender Equality as One of the Sustainable Development Goal to Transform our World”

“विश्व परिवर्तन हेतु लैंगिक समानता निरंतर विकास लक्ष्य में से एक है”

It may be pertinent to share that the United Nations by a resolution has envisioned that the world may stand transformed by adopting a 17 points agenda for sustainable development by the year '2030'. Goal No. '5' of the 17 point agenda is Gender Equality

Suitable cash awards & certificates as per the following details would be disbursed;

- If participating students are 20 or more cash awards for Rs.2,000/-, Rs.1,500/- and Rs.1,000/- would be awarded to three best Essay writers in each language.
- If participating students are between 10 and 20 cash awards for Rs.1,500/- and Rs.1,000/- would be awarded to best essay writing in each language.
- If participating students are between 5 and 10, one award for Rs.1,500/- would be awarded to the best essay writer in each language.

The essays online or offline (hard copy) may be submitted to the following faculty latest by **1159 hrs on 30 June 2023**.

Essay in Hindi: Sh. Arun Kumar Maurya, AP (EN) : 7906015747 arun.kumar@akgec.ac.in

Essay in English: Dr. Arvind Sharma, AP (AS&H) : 9911245278 sharmaarvind@akgec.ac.in
