Achievements of Team SDC-SI

1. ITER8 (15 April 2024- 22 April 2024) : SDC-SI organized a **4-day workshop** called "ITER8" for first-year students, focusing on **Competitive Programming**. The workshop was followed by a coding contest to refine their skills. The concepts were taught by 3rd-year members. The workshop helped in enhancing the students' algorithmic thinking and problem-solving abilities.

a. **150+ students** attended the workshop

b. The winners of the coding contest were awarded with cash prizes worth **Rs. 6000**

2. Startup Conclave (Held at AKGEC): Team Justice Link consisting of members Rachit Katiyar, Ankit Varshney and Lakshay Gupta participated in the Startup Conclave and performed Extremely well by presenting the Smart India Hackathon Winning Project Justice link, an AI powered application (Multilingual Designed) to help the proper representation of undertrial prisoners in India.

3. Innovation Design And Entrepreneurship Bootcamp :

Members of SDC SI consisting of members Rachit Katiyar , Ankit Varshney and Lakshay Gupta participated in the Boot Camp organized by the government of India. The bootcamp was a special chance given to the finalist participants of the Smart India Hackathon.

4. Technical Paper Presentation at Plaksha University : Harsh and Rachit presented a technical paper at Plaksha University along with the extract and a poster of their research. They previously were internally selected for the presentation then they qualified the entrance to the competition as well.
